THE ESSENCE OF PRO

The PRO RF-P2W901-SS RF remote kit, also referred to as the "901" is Compustar's flagship model that features all the bells and whistles of a top-of-the-line remote start and security system.

Through the 901, Compustar introduced a remote that didn't require a new battery after a few months of heavy use. The 901 is rechargeable via USB cable. So, if you have a Samsung Galaxy, you can recharge both your remote and your cell phone using the same USB charging cable!

INSPIRED BY YOU
Fifteen years ago, Compustar put itself on the map with the debut of the SHF-2WR remote. With an LCD screen that instantly confirmed a vehicle's status, it was the first of many examples of Compustar's commitment to innovation and style.

Fast forward to today; and Compustar has taken another step forward with the release of the Slice RF-2W940-SS RF remote kit. Slice combines performance, power, and beauty into a remote casing that is less than a 1/4" thick.

RF-2W1B-SP
2-WAY LED, 2000 FT REMOTE

+ Remote Start.....$349.99

BECAUSE YOU ASKED
Code name, "Slice Jr." The RF-2W1B-SP gives you all of the benefits of a high-performance 2- way remote starter in a compact, 1-button remote.

Ever since we released our first 2-way LED remote, the RF-2WG5-SH, dealers have been begging for a 1-button solution that utilizes the same technology. However, we took it a step further by providing three command specific LEDs that provide you with that extra peace of mind when sending a command to your vehicle.

BREAD & BUTTER

The RF-2W9000-SS 2-way RF remote kit captures everything that has made Compustar one of the top brands of remote start and security products: quality, reliability, and innovation. It's long-range performance made Compustar a pioneer in the use of Spread Spectrum Technology to send commands to vehicles.

In 2007, Compustar received a CES Innovations Award for the new features and benefits introduced to the industry with this RF remote kit. Even today, it remains a favorite amongst dealers and customers.
